BOARD MEETING DATE: September 6, 2024 AGENDA NO. 22

REPORT: Mobile Source Committee

SYNOPSIS:The Mobile Source Committee held on Friday, August 16, 2024.The following is a summary of the meeting.

RECOMMENDED ACTION: Receive and file.

Holly Mitchell, Acting Committee Chair Mobile Source Committee

SLR:ja

Committee Members

Present: Supervisor Holly J. Mitchell, Acting Committee Chair Mayor Pro Tem Larry McCallon Councilmember Nithya Raman

Absent: Board Member Gideon Kracov, Committee Chair Supervisor V. Manuel Perez Councilmember Carlos Rodriguez

Call to Order

Acting Committee Chair Mitchell called the meeting to order at 9:04 a.m.

For additional details, please refer to the Webcast.

ROLL CALL

ACTION ITEM (Item 1):

1. Adopt Resolution to Recognize Funds and Accept Terms and Fulfill Conditions and Requirements of Sustainable Transportation Planning Grant Award from California Department of Transportation (Caltrans) and Authorize Executive Officer to Enter into an Agreement with CAPCOA

Michael Krause, Assistant Deputy Executive Officer/Planning, Rule Development and Implementation, provided a background on a Sustainable Transportation Planning Grant Award from the California Department of Transportation (Caltrans) to assist in funding upgrades to the California Emission Estimator Model (CalEEMod) and GHG Handbook. The Committee approved the recommendation to adopt the Resolution recognizing \$450,000 into the General Fund, accept the terms and conditions of the Grant requirements, and enter an agreement with CAPCOA to implement the Grant. Mayor McCallon made a motion to accept the recommendation which was seconded by Councilmember Raman and approved by three votes. For additional details, please refer to the <u>Webcast</u> beginning at 7:11.

INFORMATIONAL ITEMS (Items 2-3):

2. Update on Proposed Memorandum of Cooperation on Pacific Rim Green Maritime Economy

Sarah L. Rees, Deputy Executive Officer/Planning, Rule Development and Implementation, provided an update on a Proposed Memorandum of Cooperation (MOC) on the Pacific Rim Green Maritime Economy. Prior to Dr. Rees's presentation, Bayron Gilchrist, General Counsel, requested that Board Members who may have received any campaign contributions from the entities involved in this item recuse themselves, noting it is unlikely due to the entities being from China. For additional details, please refer to the <u>Webcast</u> beginning at 14:18.

Mayor Pro Tem McCallon inquired if the Port of Los Angeles will be a signatory on the MOC with Shenzhen. Executive Officer Wayne Nastri replied that the Port of Los Angeles has entered into a separate agreement with Shenzhen and the Port of Long Beach and South Coast AQMD will coordinate with Port of Los Angeles moving forward. For additional details, please refer to the <u>Webcast</u> beginning at 22:31.

Acting Committee Chair Mitchell inquired if methanol would most likely be the clean shipping fuel. Mr. Nastri responded that the MOC will look at different clean shipping fuels and that staff prefers methanol over ammonia due to concerns with ammonia's toxicity and safety, while shipping facilities like ammonia due to its high volumetric hydrogen density. For additional details, please refer to the <u>Webcast</u> beginning at 23:45.

Councilmember Raman asked if and when the MOC language would be made available. Mr. Nastri replied that the MOC language will be available in the Board packet. Councilmember Raman then asked if the MOC will result in emission reductions that would count toward the SIP and how much emission reductions could be expected. Dr. Rees replied that the MOC could be submitted to U.S. EPA to be included into the SIP for prospective emission reduction credit. Dr. Rees added that emission reductions cannot be quantified at this time and this MOC is the first step in implementing ship emission reduction strategies. Councilmember Raman inquired if similar MOC efforts are being considered with other ports. Dr. Rees responded that staff has communicated with other Asian ports and staff continues to seek other collaborations in the Pacific Rim. For additional details, please refer to the <u>Webcast</u> beginning at 23:45. Renee Moilanen, Port of Long Beach, and Thomas Jelenic, Pacific Merchant Shipping Association, expressed support for the MOC and continuing a collaborative and cooperative approach to reduce port source emissions. For additional details, please refer to the <u>Webcast</u> beginning at 28:15.

3. Coachella Valley Attainment Plan for the 2008 8-Hour Ozone Standard Sang-Mi Lee, Planning and Rules Manager/Planning, Rule Development and Implementation, presented an overview of the Coachella Valley Attainment Plan for the 2008 8-Hour Ozone Standard. For additional details, please refer to the <u>Webcast</u> beginning at 31:29.

There were no comments received by Committee members or the public.

WRITTEN REPORTS (Items 4-6):

- 4. Rule 2305 Implementation Status Report: Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program This item was received and filed.
- **5.** Rule 2202 Activity Report: Rule 2202 Summary Status Report This item was received and filed.
- 6. Intergovernmental Review of Environmental Documents and CEQA Lead Agency Projects

This item was received and filed.

OTHER MATTERS:

7. Other Business

There was no other business to report.

8. Public Comment Period

There were no public comments.

9. Next Meeting Date

The next regular Mobile Source Committee meeting is scheduled for Friday, September 20, 2024 at 9:00 a.m.

Adjournment

The meeting adjourned at 9:40 a.m.

<u>Rule 2305 Implementation Status Report:</u> <u>Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program</u>

June 1, 2024 to July 31, 2024

1. Implementation and Outreach Activities:

Activity	Since Last Report*	Since Rule Adoption
Calls and Emails to WAIRE Program Hotline (909-396-3140) and Helpdesk (<u>waire-program@aqmd.gov</u>)	1,521	9,908
Views of Compliance Training Videos (outside of webinars)	446	7,626
Emails Sent with Information About WAIRE Program Resources	6,460	~ 83,792
Visits to <u>www.aqmd.gov/waire</u>	7,104	~ 71,170
Warehouse Locations Visited In-Person	646	2,068
Presentations to Stakeholders*	3	147

*Harbor Trucking Association SoCal Membership Meeting, California Trucking Association Webinar, City of San Bernardino City Planning Commission Meeting

2. Highlights of Recent Implementation and Enforcement Activities

Warehouse operators in Phase 1 and Phase 2 were required to submit their Annual WAIRE Report (AWR) by January 31, 2024. As of July 31st, South Coast AQMD has received the following AWRs:

Compliance Period	Phase 1 (≥250,000 sf)	Phase 2 (≥150,000 - <250,000 sf)	Phase 3 (≥100,000 - <150,000 sf)*	Grand Total
2022	604	N/A	N/A	604
2023	567	350	N/A	917

*Phase 3 warehouse operators will be required to submit their first Annual WAIRE Report by January 31, 2025.

Of the submitted reports, 79 warehouse operators still need to submit the required fees (including mitigation fees, as applicable). The warehouse operators who submitted an AWR reported earning a total of about 930,000 WAIRE Points across all options in the two compliance periods, exceeding the total WAIRE Points Compliance Obligation of about 160,000 Points reported by these entities. These excess points may be banked for future compliance. The operators reported approximately \$29.3 million in mitigation fees, of which about \$25.9 million were paid by July 31, 2024.

WAIRE Program Compliance Team staff conducted a training webinar on June 21, 2024 for the California Trucking Association (CTA). At this webinar, staff presented an overview of the WAIRE Program and provided information on key topics related to compliance including the different options to earn WAIRE Points, reporting schedule, and how to submit reports in the WAIRE Program Online Portal (WAIRE POP). Approximately 44 people participated in this webinar.

Staff served on a panel at AltaSea in Port of Los Angeles on July 25, 2024 for the SoCal Supply Chain Meetup and Harbor Trucking Association (HTA). Discussion focused on technologies such as truck tracking software that can help warehouses comply, as well as emerging business models. Approximately 30 industry and technology providers participated in the meeting.

Phase 3 warehouse operators (warehouse size $\geq 100,000$ sf to <150,000 sf) are in their first compliance period in calendar year 2024. Phase 3 operators had to submit an Initial Site Information Report (ISIR) by July 2, 2024. Since the last MSC report, staff continued to provide compliance assistance and applicability determinations to assist warehouse operators in understanding rule requirements. Due to the ISIR due date, staff experienced a significant increase in calls and emails from Phase 3 operators during this reporting period and provided the needed assistance, including support with submitting reports in WAIRE POP. As of July 31, over 200 Notice of Violations (NOVs) have been issued for failure to submit reports.

Staff continued working on eight Public Records Act requests preparing information that includes Rule 2305 reported data.

Anticipated Activities in August

- Continue to conduct outreach and compliance assistance to Phase 3 warehouse operators to advise of Rule 2305 requirements.
- Continue outreach and support efforts to warehouse operators in preparation of their ISIR/AWR submittals.
- Continue to pursue potential enforcement action as necessary.
- Continue to review and verify submitted information and analyze data reported by facilities.
- Continue to provide documents in response to Public Records Act requests.
- Continue to develop an approach for addressing business confidentiality concerns and making WAIRE Program data publicly accessible via the online F.I.N.D. tool on the South Coast AQMD website.
- Continue to enhance the WAIRE POP software to support Phase 3 AWR submittals and improved functionality (e.g., program administration, and an amendment process for submitted reports).

Notes: 1. ECRP Compliance Option.

2. ECRP Offset (combines ECRP w/AQIP). AQIP funds are used to supplement the ECRP AVR survey shortfall.

3. ERS with Employee Survey to get Trip Reduction credits. Emission/Trip Reduction Strategies are used to supplement the ECRP AVR survey shortfall.

4. Totals may vary slightly due to rounding.

DRAFT VERSION

BOARD MEETING DATE:September 6, 2024AGENDA NO.REPORT:Intergovernmental Review of Environmental Documents and
CEQA Lead Agency ProjectsDocuments and
CEQA Lead Agency ProjectsSYNOPSIS:This report provides a listing of environmental documents prepared
by other public agencies seeking review by South Coast AQMD
between July 1, 2024 and July 31, 2024, and proposed projects for
which South Coast AQMD is acting as lead agency pursuant to
CEQA.COMMITTEE:Mobile Source, August 16, 2024, ReviewedRECOMMENDED ACTION:

Receive and file.

	Wayne Nastri Executive Officer
SR:MK:BR:SW:ET	

Background

The California Environmental Quality Act (CEQA) Statute and Guidelines require public agencies, when acting in their lead agency role, to provide an opportunity for other public agencies and members of the public to review and comment on the analysis in environmental documents prepared for proposed projects. A lead agency is when a public agency has the greatest responsibility for supervising or approving a proposed project and is responsible for the preparation of the appropriate CEQA document.

Each month, South Coast AQMD receives environmental documents, which include CEQA documents, for proposed projects that could adversely affect air quality. South Coast AQMD fulfills its intergovernmental review responsibilities, in a manner that is consistent with the Board's 1997 Environmental Justice Guiding Principles and Environmental Justice Initiative #4, by reviewing and commenting on the adequacy of the air quality analysis in the environmental documents prepared by other lead agencies. The status of these intergovernmental review activities is provided in this report in two sections: 1) Attachment A lists all of the environmental documents prepared by other public agencies seeking review by South Coast AQMD that were received during the reporting period; and 2) Attachment B lists the active projects for which South Coast AQMD has reviewed or is continuing to conduct a review of the environmental documents prepared by other public agencies. Further, as required by the Board's October 2002 Environmental Justice Program Enhancements for fiscal year (FY) 2002-03, each attachment includes notes for proposed projects which indicate when South Coast AQMD has been contacted regarding potential air quality-related environmental justice concerns. The attachments also identify for each proposed project, as applicable: 1) the dates of the public comment period and the public hearing date; 2) whether staff provided written comments to a lead agency and the location where the comment letter may be accessed on South Coast AQMD's website; and 3) whether staff testified at a hearing.

In addition, the South Coast AQMD will act as lead agency for a proposed project and prepare a CEQA document when: 1) air permits are needed; 2) potentially significant adverse impacts have been identified; and 3) the South Coast AQMD has primary discretionary authority over the approvals. Attachment C lists the proposed air permit projects for which South Coast AQMD is lead agency under CEQA.

Attachment A – Log of Environmental Documents Prepared by Other Public Agencies and Status of Review, and Attachment B – Log of Active Projects with Continued Review of Environmental Documents Prepared by Other Public Agencies

Attachment A contains a list of all environmental documents prepared by other public agencies seeking review by South Coast AQMD that were received pursuant to CEQA or other regulatory requirements. Attachment B provides a list of active projects, which were identified in previous months' reports, and which South Coast AQMD staff is continuing to evaluate or prepare comments relative to the environmental documents prepared by other public agencies. The following table provides statistics on the status of review¹ of environmental documents for the current reporting period for Attachments A and B combined²:

¹ The status of review reflects the date when this Board Letter was prepared. Therefore, Attachments A and B may not reflect the most recent updates.

² Copies of all comment letters sent to the lead agencies are available on South Coast AQMD's website at: <u>http://www.aqmd.gov/home/regulations/ceqa/commenting-agency</u>.

Statistics for Reporting Period from July 1, 2024 to July 31, 2024			
Attachment A: Environmental Documents Prepared by Other Public	76		
Agencies and Status of Review			
Attachment B: Active Projects with Continued Review of			
Environmental Documents Prepared by Other Public Agencies (which	10		
were previously identified in the April, May, and June 2024 report)			
Total Environmental Documents Listed in Attachments A & B	86		
Comment letters sent	9		
Environmental documents reviewed, but no comments were made	60		
Environmental documents currently undergoing review	17		

Staff focuses on reviewing and preparing comments on environmental documents prepared by other public agencies for proposed projects: 1) where South Coast AQMD is a responsible agency under CEQA (e.g., when air permits are required but another public agency is lead agency); 2) that may have significant adverse regional air quality impacts (e.g., special event centers, landfills, goods movement); 3) that may have localized or toxic air quality impacts (e.g., warehouse and distribution centers); 4) where environmental justice concerns have been raised; and 5) which a lead or responsible agency has specifically requested South Coast AQMD review.

If staff provided written comments to a lead agency, then a hyperlink to the "South Coast AQMD Letter" is included in the "Project Description" column which corresponds to a notation in the "Comment Status" column. In addition, if staff testified at a hearing for a proposed project, then a notation is included in the "Comment Status" column. Copies of all comment letters sent to lead agencies are available on South Coast AQMD's website at: <u>http://www.aqmd.gov/home/regulations/ceqa/commenting-agency</u>. Interested parties seeking information regarding the comment periods and scheduled public hearings for projects listed in Attachments A and B should contact the lead agencies for further details as these dates are occasionally modified.

In January 2006, the Board approved the Clean Port Initiative Workplan (Workplan). One action item of the Workplan was to prepare a monthly report describing CEQA documents for projects related to goods movement and to make full use of the process to ensure the air quality impacts of such projects are thoroughly mitigated. In accordance with this action item, Attachments A and B organize the environmental documents received according to the following categories: 1) goods movement projects; 2) schools; 3) landfills and wastewater projects; 4) airports; and 5) general land use projects. In response to the action item relative to mitigation, staff maintains a compilation of mitigation measures presented as a series of tables relative to off-road engines; on-road engines; harbor craft; ocean-going vessels; locomotives; fugitive dust; and greenhouse gases which are available on South Coast AQMD's website at: http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigationmeasures-and-control-efficiencies. Staff will continue compiling tables of mitigation measures for other emission sources such as ground support equipment.

Attachment C – Proposed Air Permit Projects for Which South Coast AQMD is CEQA Lead Agency

The CEQA lead agency is responsible for determining the type of environmental document to be prepared if a proposal requiring discretionary action is considered to be a "project" as defined by CEQA. South Coast AQMD periodically acts as lead agency for its air permit projects and the type of environmental document prepared may vary depending on the potential impacts. For example, an Environmental Impact Report (EIR) is prepared when there is substantial evidence that the project may have significant adverse effects on the environment. Similarly, a Negative Declaration (ND) or Mitigated Negative Declaration (MND) may be prepared if a proposed project will not generate significant adverse environmental impacts, or the impacts can be mitigated to less than significance. The ND and MND are types of CEQA documents which analyze the potential environment will not occur such that the preparation of an EIR is not required.

Attachment C of this report summarizes the proposed air permit projects for which South Coast AQMD is lead agency and is currently preparing or has prepared environmental documentation pursuant to CEQA. As noted in Attachment C, South Coast AQMD is lead agency for three air permit projects during July 2024.

Waste and Water-related LAC240724-05 Draft Hazardous Waste Operation and Post-Closure Permits for Ecobat Resources California, Inc. (formerly Quemetco, Inc.)	The project consists of two draft permits for the battery-recycling facility Ecobat Resources California, Inc. (Ecobat), that would impose stricter standards and increase financial assurance funding to protect public health and the environment in Los Angeles County. The first draft permit, the proposed renewal of the facility's "Operating Permit," has a five-year term and includes several mandatory conditions to protect the surrounding community and the environment. The second draft permit, the "Post-Closure Permit" is required to ensure that Ecobat will continue monitoring groundwater around two closed areas onsite for at least 13 more years. The project is located at 720 South Seventh Avenue near the northeast corner of South Seventh Avenue and Salt Lake Avenue in the City of Industry. DRAFT VERSION

ATTACHMENT C PROPOSED AIR PERMIT PROJECTS FOR WHICH SOUTH COAST AQMD IS CEQA LEAD AGENCY THROUGH JULY 31, 2024

PROJECT DESCRIPTION	PROPONENT	TYPE OF DOCUMENT	STATUS	CONSULTANT
Quemetco is proposing to modify existing South Coast AQMD permits to allow the facility to recycle more batteries and to eliminate the existing daily idle time of the furnaces. The proposed project will increase the rotary feed drying furnace feed rate limit from 600 to 750 tons per day and increase the amount of total coke material allowed to be processed. In addition, the project will allow the use of petroleum coke in lieu of or in addition to calcined coke and remove one existing emergency diesel-fueled internal combustion engine (ICE) and install two new emergency natural gas-fueled ICEs.	Quemetco	Environmental Impact Report (EIR)	The Draft EIR was released for a 124-day public review and comment period from October 14, 2021 to February 15, 2022 and approximately 200 comment letters were received. South Coast AQMD held two community meetings, on November 10, 2021 and February 9, 2022, which presented an overview of the proposed project, the CEQA process, detailed analysis of the potentially significant environmental topic areas, and the existing regulatory safeguards. Response to written comments submitted relative to the Draft EIR and oral comments made at the community meetings are currently being prepared by the consultant. After the Draft EIR public comment and review period closed, Quemetco submitted additional applications for other permit modifications. South Coast AQMD staff is evaluating the effect of these new applications on the EIR process.	Trinity Consultants
Sunshine Canyon Landfill is proposing to modify its South Coast AQMD permits for its active landfill gas collection and control system to accommodate the increased collection of landfill gas. The proposed project will: 1) install two new low emission flares with two additional 300-horsepower electric blowers; and 2) increase the landfill gas flow limit of the existing landfill gas collection system.	Sunshine Canyon Landfill	Subsequent Environmental Impact Report (SEIR)	South Coast AQMD staff reviewed and provided comments on the preliminary air quality analysis, health risk assessment (HRA), and Preliminary Draft SEIR which are currently being addressed by the consultant.	Castle Environmental Consulting
Tesoro is proposing to modify its Title V permit to: 1) add gas oil as a commodity that can be stored in three of the six new crude oil storage tanks at the Carson Crude Terminal (previously assessed in the May 2017 Final EIR); and 2) drain, clean and decommission Reservoir 502, a 1.5-million-barrel concrete lined, wooden-roof topped reservoir used to store gasoil.	Tesoro Refining & Marketing Company, LLC (Tesoro)	Addendum to the Final Environmental Impact Report (EIR) for the May 2017 Tesoro Los Angeles Refinery Integration and Compliance Project (LARIC)	South Coast AQMD staff review of the revised Draft Addendum is complete. South Coast AQMD staff is preparing the Draft Title V Permit Revision for review by the United States Environmental Protection Agency.	Environmental Audit, Inc.
