

AB 617 Community Steering Committee Interest Form

South Coast Air Quality Management District

Name: Soyeon Choi

Phone number: [REDACTED]

Email Address: [REDACTED]

Affiliation (fill out only ONE box):

Select ONE community:

- Wilmington / West Long Beach / Carson
- San Bernardino / Muscoy
- East Los Angeles / Boyle Heights / West Commerce

DUE DATE
10/12/2018
10/19/2018
10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: LA County Dept of Regional Entity address: 320 West Temple St., LA, CA
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Currently working on the County's environmental justice initiatives (Green Zones Program) and developing zoning ordinance that will help address the pollution impacts due to incompatible land uses, specifically in the areas that bear disproportionate negative impacts.

How would you support outreach to ensure all voices in the community are heard?

Contribute our knowledge about the communities we serve and share our experiences on engagement strategies we have used to reach stakeholders at all levels, from youths and students to non-English speakers and others who don't normally participate.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

10/19/2018

10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Department of City Planning Entity address: 200 N Spring St, Rm 750, LA
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Work on the General Plan addresses policies regarding Environmental Justice and Air Quality. Additionally, the General Plan contains 35 Community Plans. The Boyle Heights Community Plan is in the process of an update. Participation will provide technical and policy expertise, as well as inform long range planning work.

How would you support outreach to ensure all voices in the community are heard?

Will be able to disseminate prepared outreach materials to interested parties, community organizations, and partners.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: University of Southern California Entity address: 2001 N. Soto Street, Los Angeles
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

USC Environmental Health Centers - Community Engagement program for Health and the Environment works to develop community-academic partnerships to advance environmental health in disadvantaged urban and rural neighborhoods. Our center has a special focus on air pollution, where we conduct workshops with community members, students and public health professionals on air pollution in addition to facilitating community-driven air monitoring projects using AirBeams, P-Tracks and Purple Air devices to access exposure at the neighborhood level. As a steering committee member, we hope to continue to utilize/advise participatory and community-based methods to understand the impacts of industrial processes and chemical use on the environment as it relates to air pollutants, characterize pathways of human exposure, and evaluate approaches to increase health, equity and justice. You can find more information on our website: <https://envhealthcenters.usc.edu/> and Community Engagement: <https://envhealthcenters.usc.edu/resources>

How would you support outreach to ensure all voices in the community are heard?

As the Community Engagement Administrator, I have worked with different stakeholders to address environmental health, specifically working with community based organizations, schools, clinics and state agencies throughout Los Angeles including in Boyle Heights, East Los Angeles and Commerce. We would support by reporting back information to our community partners to ensure voices in the community are heard. That includes sharing information to their residents and memberships.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Dept. of City Planning Entity address: 200 N. Spring St., Rm 667
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am working on the Boyle Heights Community Plan Update, which helps improve compatibility between neighborhood and industrial uses. The Plan Update will build upon the recently adopted Clean Up-Green Up (CUGU) Ordinance that improves compatibility between industrial uses, neighborhoods, and the Los Angeles River. The issues raised at these meetings will help inform our long range policy work.

How would you support outreach to ensure all voices in the community are heard?

We can have outreach materials available for interested parties, community organizations, and partners.

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: LA County Dept of Public H Entity address: 241 N. Figueroa St. Los Ang
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Those disproportionately burdened by pollution, other toxic hazards and poor land use that lead to unhealthy environments are low-income communities and communities of color. As the Regional Health Officer in Metropolitan Los Angeles, I am interested in advancing health equity including in this area by empowering communities, improving regulatory enforcement, reducing toxic emissions and improving health outcomes in these communities.

How would you support outreach to ensure all voices in the community are heard?

My office is an active member of several collaboratives and initiatives. We also do a lot of community engagement work. We will continue seek input and feedback from our communities on various public health issues and continue to advocate for their needs.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: AltaMed Health Services Entity address: 500 Citadel Drive, Suite 100
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

AltaMed Health Services' mission is to eliminate health disparities. A key aspect of fulfilling our mission is improving the environmental conditions that impact the health of our most vulnerable residents. AltaMed has conducted community engagement around air quality in Los Angeles County, and we are committed to continue engaging residents that live in the most affected areas to contribute to the solutions that will improve their overall health. AltaMed has health clinics in East Los Angeles, Boyle Heights, and Commerce and is one of the largest Federally Qualified Health Centers in the state of California, giving us a unique public health vantage point to contribute to the steering committee.

How would you support outreach to ensure all voices in the community are heard?

AltaMed Health Services can: a) engage residents in participatory-action-research; b) conduct community forums to engage our patients and residents in our service areas to understand the effects of air quality in their health and quality of life; c) engage affected communities through social media, and; d) conduct outreach and education in affected communities.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

My business has operations in the area that could be impacted by regulation implementation. I want to make sure we have a seat at the table and thoughtfully approach the process.

How would you support outreach to ensure all voices in the community are heard?

I'm open to doing everything necessary to support outreach efforts and make sure all interested parties have a voice. I think the goal of the Steering Committee should be to listen to all input and provide feedback/support progresses. Giving industry a seat at the table, to both make its own voice heard and effectively consider the voices of others, is critical to that mission.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a representative of one of the largest businesses/employers in the area, I represent a vested stakeholder that I believe should have a voice in this process.

How would you support outreach to ensure all voices in the community are heard?

One of my job functions with BNSF Railway is community outreach and I am very active in this specific region with many community groups.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: mark! Lopez Primary residence address (or nearest intersection): East Los Angeles	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I have been working on environmental health issues in this area since birth, and continue to raise my family in the area so I am deeply invested in emissions reductions.

How would you support outreach to ensure all voices in the community are heard?

I am a member of East Yard Communities for Enviromental Justice and participate in the monthly membership meetings in East Los Angeles, so I will report back and gather input. I will also talk to neighbors and family in the area.

Community organization Organization name: Our Lady of Victory Church Organization address: 1316 South Herbert Avenue Los Angeles, CA 90023	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

To actively support involvement in our community and to best determine in a public setting the implementation of AB617 through identifying air pollution issues such as truck traffic, odor and lead contamination and potential solutions. Also, I want to help voice my community's concerns about emission sources, mobile or stationary to develop a deeper understanding of my community's air pollution challenge. By understanding these concerns, we can develop same side strategies for air monitoring that would lead to more effective emissions reduction programs. Further, we can develop simple metrics to track continued progress. It is imperative that we take an active voice in assisting regulators and businesses come together on common reasonable solutions.

How would you support outreach to ensure all voices in the community are heard?

Our Lady of Victory Catholic Church is faith based organization who serves approximately 48,000 citizens. It is the poorest of all Catholic churches serving a large latino based. Our Leadership / missionary teams number 128 member volunteer corp. The church is located right across from Eastman Elementary school which allows us even more access to our community. We currently have 10 classrooms, a kitchen, and a pantry that can help serve and host various meetings for the community. We have a thriving network of residences and businesses to assist.

Community organization Organization name: LEGACY LA Organization address: 1250 San Pablo St. Los Angeles CA, 90033	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Folks in Ramona Gardens live surrounded by train tracks, freeways, and industrial spaces that constantly have semi-trucks coming in and out of the neighborhood. There is no buffer between industry and residential areas which is my biggest concern. I hope to highlight these issues and offer some solutions that myself and the community has come up with. As part of Legacy LA we have began engaging in research and advocacy that I have continued to work on throughout my college career. One of my biggest accomplishments has been to be garner AQMD's attention so that they implement air filters in our local elementary school, Murchison Elementary. As a recently hired staff at Legacy LA I want to continue seeing youth from our organization learn about environmental injustices and how to advocate for their community.

How would you support outreach to ensure all voices in the community are heard?

As part of Legacy LA and as a resident of Boyle Heights, I have constant contact with youth and adult residents from Ramona Gardens, Boyle Heights, and the greater LA area. As an organization we prioritize the issues and needs of folks living in the community. I would be happy to share updates and important information/resources to my community at Resident Advisory Committee (RAC) meetings at Ramona Gardens. We would also be able to host meetings here at the organization to share pertinent information for our membership and our youth.

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I want to be an advocate for my community as Commerce and the southeast are always disproportionately effected by social injustices. I want bring my experience as a Planning Commissioner to bring all community stakeholders in the community and increase civic participation and community engagement.

I want to advocate for long-term, feasible and green solutions.

How would you support outreach to ensure all voices in the community are heard?

I would be a strong advocate for community outreach by supporting use of social media, presence at local council meetings, involvement at local events, supporting bilingual material and accessibility to spanish-speaking only community members and by advocating for follow-up townhalls and extended public comment periods for member to be able to submit thoughts in writing.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Active resident (not representing a community organization or a business) Resident name: Fabiola Rivas Primary residence address (or nearest intersection): Pleasant Ave and Echandia St., BH	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

What is happening in our communities is an injustice that rarely affects non-low-income communities. The geography of Boyle Heights (proximity to freeways, industrial sites, and shipping corridors) brings a disproportionate health burden to its residents. I'm interested in becoming a member because I'm concerned about the air my family breathes. I have an 18-month baby and my husband has asthma.

How would you support outreach to ensure all voices in the community are heard?

I will fully commit myself to help the committee find solutions and increase community involvement! For example, I am part of a mommy and me group in Boyle Heights. I will be able to increase community involvement through the group and provide a voice for them.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:
