SELA CSC Incentives Budgeting Workshop

Staff held an Incentives Budgeting Workshop and presentation on available incentive funds, incentive project costs, and conducted a poll asking CSC members to prioritize the type of projects they want to incentivize.

The CSC prioritized project types will provide direction on how to spend Year 3 Community Air Protection Program incentive funds in the SELA community.

The CSC asked about green space and the efficacy and cost of school air filtration systems. CSC members also asked about truck idling, incentive program scrapage requirements and scrapage yard locations. Additionally, some CSC members stated their preference that incentive funds focus on independent truck owner-operators and small businesses. CARB staff provided an initial response on truck idling and scrapage requirements. South Coast AQMD staff provided clarification on CERP actions for green spaces and school air filtration. Additionally, staff will continue to seek input from the CSC on the type of projects they want to incentivize in a follow-up e-mail survey.

Lastly, staff notified attendees of the meeting schedule for 2021, explaining that we will be meeting quarterly rather than monthly as we did in 2020.

The remaining SELA CSC schedule of meetings for 2021 is as follows:

April 15th – 4 to 6 pm – CSC Quarterly Meeting #2

June 17th - 4 to 6 pm – CSC Quarterly Meeting #3

September 16th - 4 to 6 pm - CSC Quarterly Meeting #4

Public Comment was then received from meeting attendees.
