

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

EXECUTIVE OFFICE MEMORANDUM

DATE: April 25, 2008

TO: Interested Parties

FROM: Barry R. Wallerstein 

SUBJECT: Additional Notices of Violation for Excessive Dust
at TXI Riverside Cement

As noted in my April 18, 2008 memorandum, AQMD staff previously issued two Notices of Violation to Riverside Cement for excessive dust. Earlier today, additional Notices of Violation were issued to Riverside Cement, once again for excessive dust. Please see the attached memorandum from Mohsen Nazemi, Deputy Executive Officer of Engineering & Compliance, for details related to these violations of AQMD regulations.

ENGINEERING & COMPLIANCE**

MEMORANDUM

DATE: April 25, 2008
TO: Barry Wallerstein, D. Env., Executive Officer
FROM: Mohsen Nazemi, P. E. Deputy Executive Officer 
SUBJECT: Issuance of Notice of Violation to TXI/Riverside Cement Company

Based on our more recent surveillances and inspections conducted at TXI/Riverside Cement Company, located at 1500 Rubidoux Blvd, Riverside, we have determined that some of the equipment and processes at this facility have operated in additional violations of AQMD Rules and Regulations. Therefore, this afternoon our staff issued the following Notices of Violation to TXI/Riverside Cement Company:

Notice of Violation # P49800 for violating the following rules on April 14, 2008:

- ↓ Rule 1156 (d)(1)(C)
Creating or allowing visible dust plumes exceeding 100 feet in length.
- ↓ Rule 403 (d)(1)(A)
Causing or allowing fugitive dust created from operations at this facility to remain visible in the atmosphere beyond the facility's property line.

Notice of Violation # P505680 for violating the following rule on April 20, 2008:

- ↓ Rule 403 (d)(2)
Failure to use Best Available Control Measures (BACM) to prevent dust emissions.

These violations were observed by AQMD inspectors during surveillance and inspection activities conducted on April 14 and 20, 2008.

My staff is continuing to evaluate and review additional information and records to determine whether TXI/Riverside Cement is operating in compliance with all applicable air quality rules and regulations. Please let me know if you have any questions or need additional information. Thanks.
