

# FARMER Program

South Coast Air  
Quality Management  
District

2021

# Background

## Funding Agricultural Replacement Measures for Emission Reductions (FARMER) Program

- FARMER Program funding is available to help fund purchases of cleaner agriculture-related equipment
- Reduce emissions from the agricultural sector, yielding positive health impacts for farmers and their communities
- Prioritize funding to disadvantaged communities

# Project Criteria

## Types of Projects funded under FARMER

Harvesting  
Equipment

Agriculture  
Pump Engines

Tractors

Utility Terrain  
Vehicles (UTVs)\*

Other  
Equipment

- FARMER Program supports zero-emission UTV projects and may not require a case-by-case evaluation by ARB

At least 50% of annual activity is performing agricultural operations

Comply with Carl Moyer Program Guidelines

Apply for FARMER funds using the Carl Moyer Program Online Application System (or by paper submittal)

Must own equipment for duration of contract

Must submit 3 to 10 years of annual reports (for the life of the project/contract term)

# Program Criteria
