## **Mitigated Negative Declaration (MND) for the Proposed Pacific Gateway (TR063296)**

The South Coast Air Quality Management District (SCAQMD) staff appreciates the opportunity to comment on the above-mentioned document. The following comments are meant as guidance for the Lead Agency and should be incorporated into the Final MND.

### SCAQMD Staff's Summary of Project Description

The Lead Agency proposes to demolish four existing residential units and construct 58 townhomes totaling 118,250 square feet on 3.13 acres. (Proposed Project). Construction is expected to take 299 working days.

### Compliance with SCAQMD Rule 1403

Since the Proposed Project will include demolition of four existing residential units, and in the event asbestos is encountered during demolition, SCAQMD staff recommends that the Lead Agency include a discussion to demonstrate compliance with SCAQMD Rule 1403 in the Final MND.

Pursuant to CEQA Guidelines Section 15074, prior to approving the Proposed Project, the Lead Agency shall consider the MND for adoption together with any comments received during the public review process. Please provide the SCAQMD with written responses to the comment contained herein prior to the adoption of the Final MND. When responding to issues raised in the comments, response should provide sufficient details giving reasons why specific comments and suggestions are not accepted. There should be good faith, reasoned analysis in response. Conclusory statements unsupported by factual information do not facilitate the purpose and goal of CEQA on public disclosure and are not meaningful or useful to decision makers and the public who are interested in the Proposed Project.

Sincerely,

*Lijin Sun*
