APPENDIX G3 - Part 1 of 4

Comments Received that Do Not Require Response

This page intentionally left blank.

G3-1.0 Introduction

A total of 1798 letters and cards have been received that express support for the proposed project, but that did not contain any specific comments on the DEIR and do not require any responses. Three letters were received in opposition to the proposed project, but were received well after the public comment period on the DEIR closed, and that contained no additional issues or comments on the DEIR that were not addressed in responses to earlier comments.

G3-2.0 Support Comments Received That Do Not Require Response

Each comment letter or card has been reproduced and assigned a number (G3-1 through G3-1798). No responses have been provided as the comments do not raise any issues related to the DEIR. The list of names is presented in Table G0-1.4-3.

G3-3.0 Opposition Comments Received That Do Not Require Response

Each comment letter received after February 3, 2017, substantially after the close of the DEIR comment period, has been reproduced and assigned a number (G3-1799 through G3-1805). No responses have been provided as the comments contained no additional issues or comments on the DEIR that were not addressed to in responses to earlier comments. The list of names is presented in Table G0-1.4-3.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) -
Tesoro

Dear Ms. Wong:

I would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. The Wilmington Chamber of Commerce believes this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Additionally, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations.

Once again, our Chamber fully supports this application and respectfully urges you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 310.834.8586.

Sincerely,

Dan Hoffman
Executive Director

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) -
Tesoro

Dear Ms. Wong:

Our Association is made up of 17 Chambers of Commerce stretching from LAX to Long Beach, I would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. The South Bay Association of Chambers of Commerce believes this project will benefit everyone by improving local air quality, modernizing and upgrading refinery equipment and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Tesoro provides nearly 2000 direct jobs and another 1200 indirect jobs.

Once again, our Chamber fully supports this application and respectfully urges you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 310.834.8586.

Sincerely,

Dan Hoffman
Chair

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Mission Viejo, Ca., this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at (310) 522-6099.

Sincerely,

The Keller Family, 22442 Porreras, Mission Viejo, Calif. 92692

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) - Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. I understand this project is highly important for Tesoro to streamline and improve efficiency while simultaneously improving local air quality by reducing emissions. This is something Food Finders identifies with, as we also strive to improve the environment by reducing green house gases produced by food waste.

The Tesoro project also will generate significant local economic benefits such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. Likewise, Food Finders engages many local community members by providing volunteer opportunities and opportunities for local businesses to give back, also a public priority.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Where our organizations both have the communities' best interests at heart, as partners, Food Finders been able to benefit so many more. We are very appreciative of a corporation that makes giving back a priority.

I respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 562-283-1400.

Sincerely,

Patti Larson, Executive Director

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities they serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

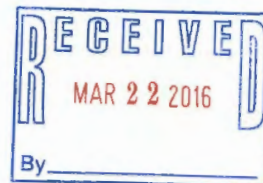

Sincerely,

Concepcion G Valles

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 404 388 4946.

Sincerely,

Logan Allen

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I am writing on behalf of the Boys & Girls Clubs of Long Beach, which serves 4,000 youth annually, to express support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. Tesoro has been an outstanding corporate citizen to the Greater Long Beach community and specifically are excellent neighbors to our Boys & Girls Clubs, and their families located near their operating plant. We stand behind them in their efforts to improve local air quality, modernize and upgrade their refinery equipment.

We are pleased that Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits, like ours, and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Because outside play is important to our programs, we are equally excited that as a result of the LARIC project, local emissions will be reduced and air quality will be improved. Tesoro has been a GREAT NEIGHBOR and consistently demonstrates a strong commitment to our local community as a job creator, and providing hundreds of millions of dollars in revenues and in state and local tax revenues which help fund local priorities in Carson and Wilmington.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me.

Sincerely,

Don Rodriguez
CEO

This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities they serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

A.N. HARRIS

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a retired Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities they serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

As a retired Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities they serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Marianne Thomas

Re: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

My name is David Wright, I am the owner of DEWright, Inc. a small energy consulting company with offices in Long Beach, CA. I have over 48 years of experience in many aspects of the petroleum industry and have been an active member of the petroleum industry in California since 1969. I have worked with the various refining groups in the LA Basin over these many years and fully understand the many important benefits that the industry provides to the LA Basin specifically and to California in general. The refining industry is absolutely critical to the economy of the region and the state. **Without the refining industry the economic base of California would not exist.**

The proposed Tesoro integration project is an important project to the region and at the same time it offers many important benefits both from an environmental as well as from an economic standpoint. The project improves the air quality in the region and it creates and maintains important well-paying jobs (both for new construction and for on-going operations) in an economically depressed area of the Los Angeles Basin.

Accordingly, I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential

3760 Kilroy Airport Way – Suite 220 – Long Beach, CA 90806

Page 2 of 2

to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

The work that Tesoro is proposing will also result in a more reliable operation. The fuels that the refinery produces are strategic to the region. Having a reliable source of these fuels is critical. In addition it is important to the local and state economy. Due to the limited supply of CARB based transportation fuels in the state, the issues which impacted the ExxonMobil Torrance Refinery caused transportation fuels to rise in cost and have continued to impact the state economy. The Tesoro refinery will represent an even bigger percentage of the state transportation fuels supply making increased reliability even more important.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

Sincerely,

DEWright, Inc.

Re: Los Angeles Refinery Integration and Compliance Project (LARIC) - Tesoro

Dear Ms. Wong,

We are writing to you today in support of the Tesoro Los Angeles Refinery Integration and Compliance (LARIC) project and appreciate Tesoro and the AQMD for informing the community of the project.

As a long-time resident of Wilmington and employee of Brinderson, a contractor to the oil industry, I am familiar with refinery operations. The modifications of the many processing units and use of Best Available Control Technology will increase safety and substantially reduce emissions, improving the air quality for our families and those of us who work in the harbor area.

I am also the Executive Director of Clean Wilmington that is beautifying neglected areas of Wilmington through large landscaping projects. As a nonprofit, we rely on the support of our local businesses and can always rely on Tesoro to get involved in our events and projects to make a real difference for our families and our community.

Tesoro has always been a good neighbor. This significant investment in refinery upgrades that will reduce emissions, increase operational efficiency and reliability, and create much-needed jobs underscores Tesoro's commitment to our communities and its employees.

It is for these reasons that our organization supports the LARIC project and urges the AQMD to permit Tesoro to move forward with this project.

Thank you,

Salvador Lara
Executive Director, Clean Wilmington

Re: Los Angeles Refinery Integration and Compliance Project (LARIC) - Tesoro

Dear Ms. Wong,

We have reviewed the Draft Environmental Impact Report and support the Tesoro Los Angeles Refinery Integration and Compliance project. As an 11-year member of the Wilmington Neighborhood Council and former Port of LA-Community Advisory Committee representing the Wilmington community, our board is well aware of the need to reduce greenhouse gases and emissions. The improvements to this critical refinery infrastructure will not only reduce emissions from refinery operations, but also along our many transportation corridors by giving Tesoro the capability of producing 100% CARB compliant gasoline. We support the proposed efficiency measures that will increase capacity within the refinery, move more crude and refined products by pipeline, and allow tankers and railcars to unload faster, reducing engine emissions. The project will provide many local jobs and increase revenue for our local economy. We view this project as a significant benefit for all of us who live and work in the harbor area communities.

Tesoro is a good neighbor that works with community members to promptly address any environmental or safety concerns. It is also a wonderful community partner and one of the few companies that care about the well-being of our residents and our community. Pacific Unicom Corp is nonprofit that relies on the support of our local businesses to help sponsor our many community events and beautification projects. We can always count on Tesoro to provide resources for our events and projects that have a positive impact on our youth, families and our communities.

We strongly support this modification and integration project that will result in safer, more efficient operations and better air quality and urge the AQMD to approve the Tesoro Los Angeles Refinery Integration and Compliance Project. We thank the AQMD for their effort to keep the community informed of this project.

Sincerely,
Pacific Unicom Corp

Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong

I am writing to express my support for the Tesoro Los Angeles Refinery Integration and Compliance (LARIC) project. This Project will benefit those who live and work in the local area by improving the local air Quality while modernizing and upgrading the refinery.

Tesoro's plan to invest hundreds of millions of dollars to improve the existing Carson and Wilmington operations will create a combined Los Angeles Refinery that is cleaner and more efficient. The LARIC project will reduce local emissions and improve air quality and create much-needed jobs in addition to hundreds of millions of dollars in revenues and millions of dollars in state and local tax revenues.

Tesoro continues to be a good neighbor and has consistently demonstrated a strong commitment to our local communities. Tesoro has invested millions of dollars Supporting Southern California communities and local nonprofits. Helping Tesoro to improve efficiency will allow continued community support and investment.

Tesoro is committed to make long term improvements to its Los Angeles operation at a time when other companies are not investing in improvements.

I fully support Tesoro's application and respectfully urge you to approve their plan to improve air quality and streamline their facilities.

If I can answer any questions, please feel free to call, 949 375-1814

Sincerely,

Robert P. McKoy

Re: SUPPORT – Tesoro Los Angeles Refinery Integration and Compliance Project (“LARIC”)

Dear Ms. Wong:

On behalf of the Los Angeles Area Chamber of Commerce, representing over 1,650 member organizations, I am writing to express our support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. We would like to commend Tesoro for their extensive outreach to the residents, non-profit organizations and businesses surrounding the Carson, Wilmington and Long Beach Communities. Upon consideration, the Chamber believes the LARIC project would improve local air quality, modernize and upgrade refinery equipment and generate local benefits.

The Chamber supports the South Coast Air Quality Management District’s Draft Environmental Impact Report, (Draft EIR), for the project and believes the proposed integration of the Carson and Wilmington refineries will provide both, economic and environmental benefits for the Los Angeles region. In addition to providing Tesoro with operational efficiency gains, which will in turn provide economic benefits for consumers and businesses in our region, the Project will also lead to fewer emissions. As noted in the Draft Environmental Impact Report, (Draft EIR), “construction and operation of the proposed project is not expected to: generate significant adverse impacts to the applicable 2012 Air Quality Management Plan; conflict with or diminish an air quality rule or future compliance requirement, policy, or regulation adopted for the purpose of reducing emissions; or create objectionable odors.” In fact, according to the Draft EIR, the LARIC is expected to “substantially reduce greenhouse gases, sulfur oxide, nitrogen oxides, carbon monoxide, and particulate matter emissions.”

Based on the aforementioned reasons, the Chamber supports the LARIC Project, which would not only improve efficiency, but will also benefit the community of Los Angeles; residents, businesses, and consumers alike, while improving our regional air quality.

Sincerely,

A handwritten signature in black ink that reads "Gary Toebben".

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of *Porter Ranch*, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at .

Sincerely,

*Samantha Beasley

Subject: SUPPORT - Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

The Harbor Trucking Association is an association comprised of over 100 member companies operating over 7,000 trucks in California's port complexes. On behalf of the HTA, I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

The completion of LARIC will allow Tesoro to respond to the clean diesel needs of the trucking industry in California. As importers and exporters decide where to do business and where to create jobs, it is important to keep in mind the competitive advantage this could give California's logistics and good movement industries in keeping them in Southern California.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

Sincerely,

A handwritten signature in black ink, appearing to read 'W LaBar', written over a horizontal line.

Weston LaBar
Executive Director

Subject: Tesoro LARIC Project

Dear Ms. Wong:

On behalf of the board of directors and staff of the YWCA of the Harbor Area & South Bay, I would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. We believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local community priorities.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. We fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me either by telephone or by email: margie@ywcaharbor.org.

Sincerely,

Margaret I. Hernandez

Re: Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

On behalf of the American Red Cross, we would like to voice our support for Tesoro. They have been strong supporters of the local community, investing thousands of dollars in the youth and families, making their communities better in the long run.

The mission of the American Red Cross is to prevent and alleviate human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors. Tesoro has been a strong supporter of the Red Cross. Their caring and compassion for their neighbors is phenomenal and the support they provide is critical for those in need. Tesoro's investment to improve its Wilmington and Carson facilities to create an operation that operates cleaner and more efficient will not only improve the environment but will bring significant benefits to our local area.

Tesoro has been a great leader in our community and we are thankful for their support. Their involvement in the American Red Cross has changed the lives of those in need. We are proud to support Tesoro in this request and look forward to working with them in the future.

Sincerely,

A handwritten signature in black ink that reads "Donya Webb". The signature is written in a cursive style with a large, stylized "D" and "W".

Dear Ms. Wong,

We are writing in support of the Tesoro Los Angeles Refinery Integration and Compliance project (LARIC). As a not-for-profit organization serving over 32,000 people annually, we value our intense partnership with Tesoro and their support of cause-driven YMCA programs and services. Very few businesses and their employees get involved in such a deep meaningful way with their community, and make a direct impact with children and families.

The Fairfield YMCA as an example has been practically adopted by Tesoro and the members of Tesoro's leadership team. They have provided professional volunteer leadership as well as valuable sustaining support that have helped ensure critical programs desperately needed in the economically challenged neighborhoods of this service area.

We support Tesoro's effort to make efficiency upgrades to the refinery that will help make our families and neighborhood safer. This project is a win-win for all of us that live and work in the community.

Tesoro has been a good neighbor, working with community members to promptly address any concerns regarding environmental and safety issues. We understand that Tesoro will invest over \$250 million dollars in refinery upgrades that will help reduce refinery emissions, create operating efficiencies through greater reliability, and bring much-needed jobs to the area.

We believe both Tesoro and the Air Quality Management Agency have made an excellent effort to keep the community informed of this project, and sincerely urge the AQMD to review and issue the necessary permits in a timely manner to allow Tesoro to move forward with this project.

If you have any questions, please feel free to contact me at (562) 279-1738.

Sincerely,

Alfredo Velasco

Diamond Bar, CA 90765

Dear Mr. Krause:

I am writing in support of the Tesoro Los Angeles Refinery Integration and Compliance project (LARIC). Tesoro's commitment to the health and safety of the Wilmington community is evident. We are fortunate to have a neighbor, such as Tesoro, that cares about strengthening education and health programs in our community.

Tesoro has long been a partner in supporting Academic programs at Banning High School. This year, Tesoro granted Banning High School \$17,000 for our STEM program and academic recruitment event. Tesoro has also offered our students summer intern positions in support of our work experience programs. We appreciate their continuous commitment to our students and their families.

For these reasons, I support the request for the refinery upgrades that Tesoro is planning. I understand that the upgrades will help reduce refinery emissions, create operating efficiencies through greater reliability, and bring much-needed jobs to the area. These are all needed and appreciated at Banning High School and the Wilmington community.

I hope that you will consider the issuance of the necessary permits to allow Tesoro to move forward with this project.

Sincerely,

A handwritten signature in black ink that reads "Rudy Mendoza".

Re: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

On behalf of Wilmington Park Elementary School, I would like to express our support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project will improve local air quality, generate significant local economic benefits, and modernize Tesoro's refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public schools in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our school and our community. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and I believe that Tesoro is committed to continuing this community investment.

Thank you,

Adriana M. Nakano
Principal

Re: Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong,

On behalf of the Los Angeles County Business Federation (BizFed) – representing over 155 business groups with more than 273,000 business owners across our region, **we are writing to urge support for the Tesoro Los Angeles Refinery Integration and Compliance project (LARIC).**

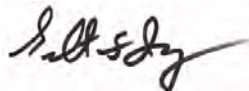

As you may know, BizFed supported this project in the NOPIS (Notice of Preparation Initial Study) stage in 2014 – and we continue to support it now that the Draft Environmental Impact Report (DEIR) is available. While the scope has narrowed, it maintains its focus on emission reductions and efficiency.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

We have seen Tesoro demonstrate a strong commitment to our community and know this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

For these reasons, and more, we support this project and respectfully urge approval of Tesoro's effort to improve and streamline its facilities.

Sincerely,

Gilbert Ivey

It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NO_x, SO_x and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NO_x, SO_x and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

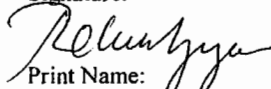

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Carson, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(310\) 233-6154](tel:3102336154).

Sincerely,

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

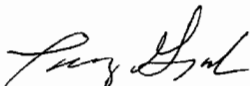

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely, *David L. Vaughn*

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NO_x, SO_x and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to the Greater Los Angeles African American Chamber of Commerce specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 323-292-1297.

Respectfully submitted,

Gene Hale
Chairman

Subject: SUPPORT Tesoro LARIC Project

Dear Ms. Wong,

I am writing to express my strong support for the Tesoro Los Angeles Refinery Integration and Compliance Project moving forward.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has demonstrated a strong commitment to our community and this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

For these reasons, and more, I support this project and respectfully urge approval of Tesoro's effort to improve and streamline its facilities.

Sincerely,
Elizabeth Shapiro

RE: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

After thoroughly reviewing literature and discussing the project with educated and knowledgeable individuals I extend my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro.

As a lifetime resident of San Pedro, from a family with a 100 year history and legacy in the tuna canning industry and extremely aware of ecological and aesthetic concerns my assessment is that this project will improve local quality of life with regard to improved air quality, create significant economic benefits including more jobs for the harbor area, and enhance and modernize refinery equipment to the highest standard. The proposed upgrades will also contribute to the refinery meeting the current and future strict regional air quality standards.

This project will benefit all of us who live and work in the area and the application should be approved to accelerate Tesoro's effort to improve and streamline its facilities.

Sincerely yours,
Stephanie Mardesich

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project (LARIC)

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the President of Total-American, I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

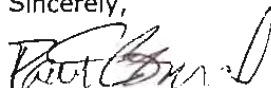

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 562-220-1460.

Sincerely,

Paul F. Conrad
President

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong,

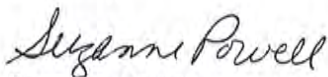

We are in strong support of Tesoro's proposed Los Angeles Refinery Integration and Compliance (LARIC) project. As an active nonprofit corporation in Southern California with more than 900 member volunteers serving close to 24,000 individuals in the greater Long Beach region, this project is important to us as it will improve the local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

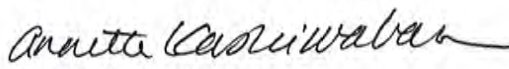

Tesoro is planning to invest \$460 million to physically connect and upgrade their adjacent Carson and Wilmington facilities so the resulting combined refinery could operate more cleanly and efficiently. The new refinery would reduce greenhouse gases and other emissions locally, equivalent to removing more than 13,500 passenger vehicles from local roads each year. In addition the LARIC project will support our local economy by providing good-paying local jobs, increasing local business revenues and generating millions in tax revenues that can be used for local priorities.

We appreciate our corporate partnership with Tesoro as they help support the mission and vision of Assistance League of Long Beach and its philanthropic programs. Tesoro is an active and highly visible corporate participant in our community assisting many worthy charitable organizations.

We respectfully urge you to approve Tesoro's effort to improve and streamline its facilities as it will definitely be a "win-win" for all of us who live and work in this community.

Sincerely,

Suzanne Powell
President

Annette Kashiwabara
Executive Director

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to The Wilmington Lions Club specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

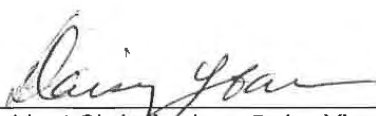

Once again, we fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact the following Wilmington Lions Club members:

Subject: Tesoro LARIC Project

Dear Ms. Wong:

On behalf of the board of directors and staff of the Friends Banning's Landing, I would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. We believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local business will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local community priorities.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. We fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me by telephone at 310-847-7704 or by email: tblccoffice@earthlink.net.

RE: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the President of the Wilmington Coordinating Council, I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro invests in supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 424- 342- 9657

Sincerely,

Shirley Atencio
President

Re: Los Angeles Refinery Integration and Compliance Project – SUPPORT

Dear Ms. Wong:

On behalf of the Los Angeles County Economic Development Corporation (LAEDC), an organization dedicated to raising standards of living for the residents of L.A. County by increasing economic opportunity and regional prosperity, please accept this letter in support the Los Angeles Refinery Integration and Compliance (LARIC) project. The LAEDC believes this project will contribute meaningfully to the local economy, while helping to increase refinery efficiency and improve local air quality.

As part of the LARIC project, the Tesoro Refining & Marketing Company LLC (Tesoro) plans to invest hundreds of millions of dollars to improve and integrate its existing City of Carson and Wilmington community operations into a single, combined Los Angeles Refinery that runs more cleanly and productively. According to your agency's Draft Environmental Impact Report (DEIR), the LARIC modernization project "is expected to substantially reduce greenhouse gas (GHG), sulfur oxides (SOx), nitrogen oxides (NOx), carbon monoxide (CO), and particulate matter (PM) emissions."

The DEIR further states that these *substantial* reductions would be achieved, in part: "by reconfiguring the combined Refinery complex to improve the gasoline to distillate production ratio from the integrated refinery to expeditiously respond and adjust to ongoing changes in market demand for various types of petroleum products." This notion of adjusting to "ongoing changes in [the] market" is critically important as our state's refining industry, which supported (2013) over 173,000 direct, indirect and induced jobs; over \$16 billion in labor income; and over \$150 billion in output, continues to respond to an increasingly competitive global refining industry. Adding to this urgency, both end-user consumers and value chain industries that use refined petroleum and petrochemicals as an input, including pharmaceuticals, cosmetics, plastics, paints, and asphalt products, are all vulnerable to any reductions in refinery capacity.

In addition to the emissions reductions and market efficiency gains, the projects is, according to Tesoro, expected to yield new local jobs and millions of dollars in increased output and fiscal impacts, contributing more tax revenue to

APPENDIX G3: SUPPORT COMMENTS RECEIVED THAT DO NOT REQUIRE RESPONSE

support civic, community and social priorities in the City of Carson and Wilmington community, and generating hundreds of millions of dollars in revenues for local businesses.

For all of the above reasons, the LAEDC supports the LARIC project application to modernize, streamline and economize this important asset in our state's all-important refinery industry.

Should you have any questions and/or comments, please do not hesitate to contact me at (213) 236-4800.

Sincerely,

A handwritten signature in black ink, appearing to read "David Flaks", with a long horizontal flourish extending to the right.

David Flaks
President & COO
LAEDC

WORKING TOGETHER FOR A CLEANER FUTURE

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to the Carson Dominguez Employers Alliance (CDEA) specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at (310) 422-0457.

Sincerely,

Jen Earle

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) Tesoro

Dear Ms. Wong:

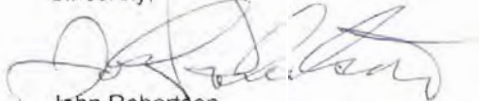

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Southern California, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the owner of Gekko Engineering, I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at (310) 513-0000.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Wilmington, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 310-951-2611

Sincerely,

1127 N. Aralon Blvd.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Compton, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at

Sincerely,~

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) -
Tesoro

Dear Ms. Wong:

I am the Executive Director for the Wilmington Chamber of Commerce, Chair for the South Bay Association Chambers of Commerce and have served numerous years on the Community Advisory Board (CAB) for the refinery that is known today as Tesoro. It is because I have served on the CAB and have been a resident of Wilmington for more than forty years that I wish to submit my own letter which may not necessarily reflect the views of the organizations I represent. I have been absolutely impressed with the efforts that Tesoro has made to outreach and be inclusive. Schools, Community Organizations, Businesses, Elected Representatives and residents are all members of our CAB and we are invited to ask tough questions and believe we have always received an honest response.

Tesoro makes significant contributions to our communities that make a difference for our schools, environment and numerous non-profits. This project improves air quality by reducing emissions, creates jobs, increases state and local tax revenues and generates hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards and operate more efficiently.

This project has my full support and with the utmost respect I urge you to approve LARIC so we can realize the enormous benefits in a timely manner. I would be happy to answer any questions you might have, please feel free to contact me at 310.977.3562.

Sincerely,

Dan Hoffman
