

**ERRATA FOR AGENDA ITEM #25
Board Meeting of February 3, 2017**

Final Program Environmental Report for the 2016 AQMP

A correction to the Final Program Environmental Impact Report for the 2016 AQMP is shown below in underline text.

Page 6-27 (Section 6.4.5.1)

6.4.5.1 Proposed Project Impacts

Construction Impacts: Implementation of the proposed project control measures associated with air pollution control technologies and exhaust standards would not result in noise and vibration impacts because construction activities would occur within appropriately zoned industrial and commercial areas, impacts would be temporary and limited to construction activities, and construction noise/vibration impacts to sensitive receptors would not be expected. However, transportation-related construction activities often occur during the evening/nighttime hours to minimize traffic impacts during the more heavy traffic periods. Therefore, the noise and vibration impacts during construction activities are considered significant.
