ADVISORY # 01-13 to Operators of Gasoline Dispensing Facility Submittal of Monthly Throughput Data in Calendar Year 2012

January 31, 2013

Dear Gasoline Dispensing Facility Owners/Operators,

The South Coast Air Quality Management District (AQMD) amended its Rule 461 – Gasoline Transfer and Dispensing on April 6, 2012 to require operators of gasoline dispensing facilities to submit their facility's each individual month's gasoline throughput data for the previous calendar year to the Executive Officer by March 1 of the following year. **This Advisory is to remind you that you are required to submit your facility's each month's gasoline throughput data for calendar year 2012 by March 1, 2013. Failure to submit the required monthly gasoline throughput by March 1, 2013 constitutes a violation of AQMD Rule 461 and your facility may be issued a violation notice and subject to penalties.**

You may submit a copy of the monthly records you keep regularly with a signed statement, similar to the statement on the attached form, verifying the accuracy of the data. Alternatively, you may complete the attached form and have it signed by a person who owns, leases, or operates the gasoline dispensing facility. Please note that this requirement applies only to gasoline throughput. Therefore, the data you submit should NOT include any diesel throughput. Please submit the data by facsimile to (909) 396-3761.

If you are an operator of 20 or more stations and wish to submit the throughput data for all your facilities at once, please contact the AQMD at (909) 396- 3546 for further instructions on how to submit the data since they will require additional handling.
