South Coast AQMD Issues Windblown Dust Advisory for Portions of Riverside County

Valid: Tuesday, April 13 through Wednesday, April 14, 2021

This advisory is in effect through Wednesday. South Coast AQMD will issue an update if additional information becomes available.

A PM10 Dust Advisory is in effect on Tuesday, April 13, 2021 in the San Gorgonio Pass area and the Eastern Coachella Valley due to predicted high winds.

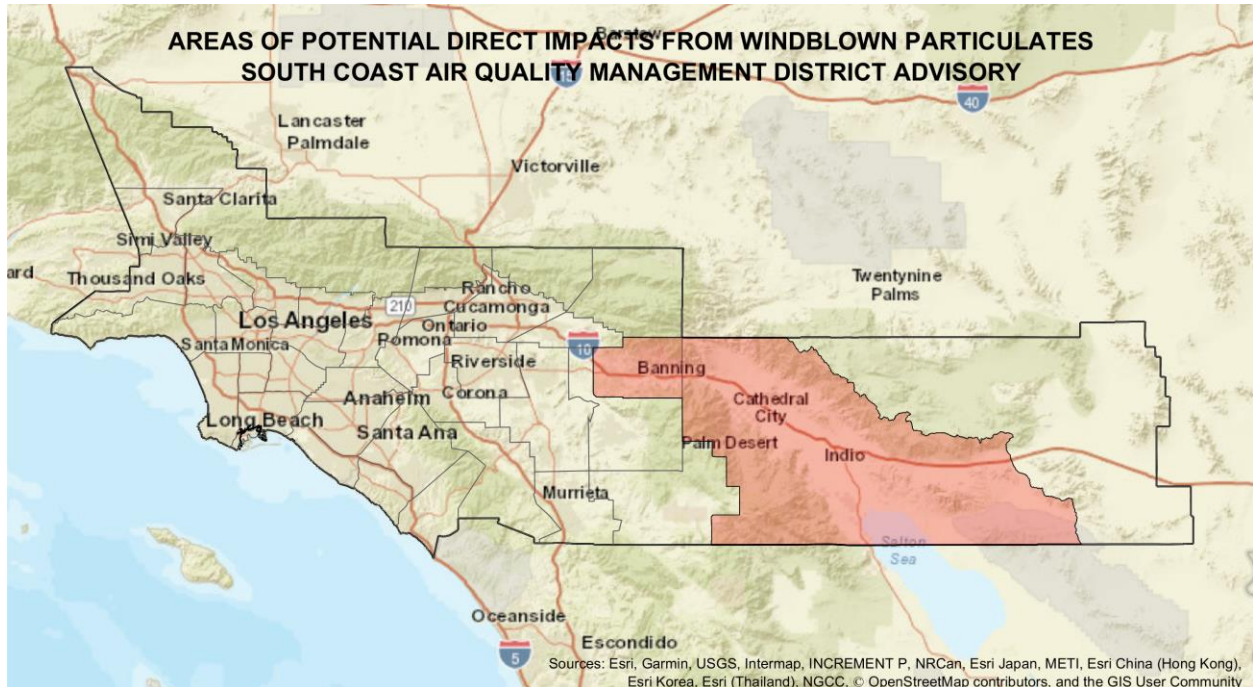

The National Weather Service (NWS) has posted a High Wind Warning for San Gorgonio Pass near Banning that is in effect from Tuesday at 3:00 p.m. through Wednesday at 5:00 a.m. For information regarding the NWS warnings, please visit the NWS San Diego (<https://www.weather.gov/sgx/>) website.

Winds from the west with gusts up to 60 mph are expected in the mountains and deserts. Areas of blowing dust and sand are predicted throughout this wind event, which may result in **Unhealthy for Sensitive Groups** or higher Air Quality Index (AQI) levels in the San Gorgonio Pass area and the Eastern Coachella Valley. Localized areas of blowing ash are possible in areas near the 2020 wildfire burn scars.

In areas directly impacted by windblown dust and ash: Limit your exposure by remaining indoors with windows and doors closed and avoiding vigorous physical activity.

Areas of direct impacts and poor air quality may include portions of:

- **Riverside County:** San Gorgonio Pass (Area 29), Coachella Valley (Area 30)
