- South Coast AQMD will issue an update if poor air quality is expected to persist.

### Detailed Forecast

Sunday, Monday, and Tuesday daytime	Air quality might improve slightly due to reduced wind speeds.

South Coast AQMD will issue an update if additional information becomes available.

### If you are in an area impacted by windblown dust or ash:

- Limit your exposure by remaining indoors with windows and doors closed or seeking alternate shelter.
- Avoid vigorous physical activity.
- Run your air conditioning and/or an air purifier. If possible, do **not** use swamp coolers or whole house fans that bring in outside air.
- Help minimize dust pollution by stabilizing loose soils and slowing down if driving on dirt roads.
