AGENDA

1. Rule 1118.1 Background
2. Resolution Language:

BE IT FURTHER RESOLVED, that the South Coast AQMD Governing Board directs staff to conduct a technology assessment of various technologies, techniques, approaches, and associated costs to beneficially use gas to reduce flaring ~~from oil and gas production sites~~ and to report a summary of the technology assessment to the Stationary Source Committee within 24 months of rule adoption and amend the requirements for flaring produced gas if deemed appropriate

3. Technology Assessment Objective and Potential Areas of Research
 - i. Significant information already available on beneficial use, so what further research should be conducted (e.g., regulatory hurdles and limitations)
 - ii. Request for Proposals for Third Party Assessment
 - iii. Possibly form two separate sub-committees for biogas and produced gas
4. Next Steps
